

Need **help** achieving your annual **Indigenous (PSIB*)** procurement **target**?

Chase Office Interiors has successfully supplied and serviced over \$50 million in office furniture to the Government of Canada since 2003. We assist our government clients through the procurement process by utilizing the current furniture supply arrangements. Chase is the only 100% Indigenous-owned office furniture supplier in Canada and can help your department achieve its PSIB targets.

The Government of Canada has established a minimum 5% Indigenous procurement target for all departments to create more opportunities for Indigenous businesses to succeed and grow. Indigenous Peoples in Canada comprise approximately 5% of the overall Canadian population; however, they are consistently awarded a lower percentage of federal contracts until now.
